

- Since the Committee adopted the simplified bidding documents as mandated by GPPB Circular 04-2020, the PETRON representative noticed that the sealing and marking of bids pertains to the 'two envelope system'.
 - The BAC clarified in Clause 15 of the Bid Data Sheet (BDS) that:
Each Bidder shall submit one (1) original and two (2) copies of the first and second components of its bid. Both envelopes (Technical Component and Financial Component) should be contained in a Mother Envelope sealed, name indicated near the sealed area signed and marked "ORIGINAL BID".

5.2 Engr. Yalo, TWG Head demonstrated to the bidders the proper preparation of the envelopes following the instructions stated above.

5.3 Since no further clarification were raised by the PETRON representative, the BAC terminated the Pre-Bid Conference for the GASOLINE project and requested the bidder to leave the virtual room.

PROCUREMENT OF 30 UNITS, 2HP SINGLE PHASE 230 VOLTS INVERTER WINDOW TYPE AIR CONDITIONING UNITS WITH INSTALLATION FOR NFTI - PPSC BAC IB NO.002 (G) 2021 – TOTAL ABC Php1,200,000.00

5.4 The Chairperson gave the bidders the opportunity to clarify issues and concerns pertaining to the aircon project, the following were raised:

- *Are there allotments ("abang or butas") already for the window type aircon? And if the bidders would support the unit by providing braces?*
 - Yes, there are already allotted spaces and bidders during installation will just insert the window type aircon. However, bidders should see to it that brace supports the aircon unit and not let it fall outside. A circuit breaker is also ready.
- *What is the dimension for the window-type aircon?*
 - Engr. Malapitan of the Engineering Unit stated that a standard dimension for a 2HP aircon should be followed.
- *For site inspection, to whom bidders would coordinate the inspection schedule?*
 - The BAC Secretariat stated that site inspection requests should be coordinated with the BAC secretariat through email. The requests then will be coordinated with the project representative (Mr. Daniel Tadalán) at the NFTI.

5.5 Since no further clarifications were raised, the BAC terminated the Pre-Bid conference for the aircon project. Bidders were requested to leave the virtual room for the Committee to proceed with the next project.
