

REHABILITATION OF EXISTING WOODEN GRANDSTAND WITH BLEACHER AT NFTI - PPSC BAC IB NO.003 (I) 2021 – TOTAL ABC Php13,000,000.00

5.7 The Chairperson requested the bidders to raise their issues and concerns pertaining the Grandstand project.

- *Pertaining the proper sealing & marking of bids, earlier it was cleared that the BAC follows the two envelope system, does it applies to the infrastructure project?*
 - Yes, the BAC informed the bidders that all documents preparation should follow the two-envelope system since the BAC during initial evaluation should evaluate first the Technical Documents and if bidder pass the technical documents that's the only time that the **financial envelope** will be opened. Also, the BAC recommended to the bidders to use **blue pen or ink** in signing all pages of the submitted documents to assure the Committee that what they evaluate are signed individually and not photocopied for the reason that all original and copies forms part of contract. Bidders were also encouraged to use tabbing and table of contents.

- *For the grandstand project, some bidders visited the project site already and they noticed the existing structures in the area. Is demolition part of the scope of works and after the rehabilitation, are bidders required to clear the area and bring with them the debris?*
 - Yes, the Engineering Unit cleared that "**demolition**" of the existing structure is part of the contract and after the rehabilitation, contractors will just leave the debris since the NFTI still needs to check if there are usable materials.

- *For the Technical documents are list of personnel, list of equipment included for submission?*
 - Yes, the BAC Secretariat enumerated the checklist of Technical and Financial Documents on pages 34 & 35 of the Bidding documents where List of Personnel, List of Equipment and others are enumerated and for submission during the Opening of Bids.

5.6 Since no further clarifications were raised, the BAC thanked the bidders and requested them to leave the virtual room and the face to face attendees as well at the Matatag Hall for the continuation of the BAC Meeting.

B. TECHNICAL WORKING GROUP (TWG) BID EVALAUTION FOR THE FOLLOWING:

PROCUREMENT OF 60 UNITS WALL FAN WITH INSTALLATION FOR THE NFTI DORMITORY – RFQ BAC NO.2021-001 – TOTAL ABC Php300,000.00

5.7 The Chairperson requested the TWG to present to the BAC the results of their evaluation.
