VACUUM CLEANER

- Traps dust, dust mite allergens, bacteria, pollen
And all kinds of microscopic particles effectively
- Powerful 1000 watts motor for consistent suction
- Works as an air purifier by releasing clean & fresh air
- Has 4 stages of filtration including a HEPA filter
- The air that is blown out from the vacuum is cleaner and fresher
- For fresh, clean and pleasantly fragrant air, just add

Aromatherapy oil or disinfecting non-foaming solution

- Just switch on without the suction hose and it works like an
Air purifier and freshener
- With variable speed control switch

Input power: 1000 watts

Suction power: 150 watts
